

What People are Saying About Us...

"I received it this morning and I implemented it immediately! It's perfect!! Please accept my deepest thanks for making this a reality for our business! Many people here have listened to it and are so pleased.

We appreciate your loyalty, trustworthiness, reliability and most importantly, your commitment to us for making this happen.

We truly value our relationship with you and are looking forward to many more opportunities with you! With all of the communication we've had, I've learned things that are so important in a relationship with a customer.

I've shared some of them with our Customer Service department and as a result, they are using them when dealing with our customers. So, you've helped us in ways you weren't even aware of! Thank you for that!"

Laurie Douglas

“The Easy on Hold music has not only boosted sales but it has better informed our customers. We get numerous calls from current customers who comment on how informative the on hold message is...”

Also we get great exposure from our potential commercial customers who often remark about how large and diverse we are – adding to our shining company image. Many like the upbeat attitude and the professional quality and overall sound of the production.

In short it’s great advertising, great for customer education, and above all beats playing “Muzak” or a radio station – which essentially pays for other people’s advertising. We will never go with out again and plan to update every 6 months.”

“Dear Garrett,

Yourself and Easy On Hold hit the nail on the head the first time! I could have not asked for a better production! I give kudos to yourself and your team that helped design my needs. I believe that for the price that I paid was a great investment toward my company. I assure you that when the call arises for other projects that require your talents that you will be the first one I contact. Congratulations you have created a repeat customer. Thanks again.”
